GSENM-specific Draft Talking Points for Monument Review Rollout

- ☐ Secretary Zinke submitted his recommendations on National Monuments to the President. These are only recommendations and not decisions. Until the President makes a decision on the recommendations for GSENM, and the Secretary issues direction based upon the President's decision, Monument staff will continue to manage Grand Staircase-Escalante National Monument "where-is, as-is" according to the Presidential Proclamation, the Monument Management Plan, and all other applicable laws and regulations.
- ☐ Monument management and staff were requested by the Department to provide factual information and data about the Monument for Departmental use during the review.
